Retail Business Performance Report | Dynamic Business Report – Day 05

Orders: Jan 2020 – Dec 2024

All years shown

Key Performance Indicators

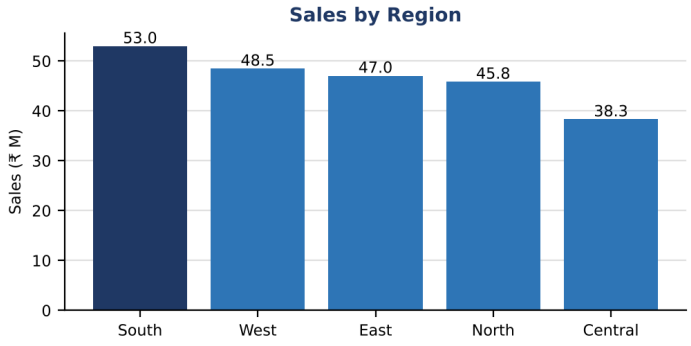

TOTAL SALES	TOTAL PROFIT	TOTAL ORDERS	TOTAL CUSTOMERS
₹232.65M	₹43.05M	4,200	4,112
all order statuses	margin 18.5%	avg sale ₹55,393	distinct Customer IDs

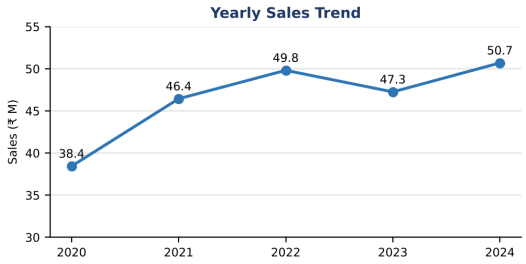

HIGHEST SALES REGION	BEST SELLING CATEGORY	MOST PROFITABLE CATEGORY	REVENUE AT RISK
South	Electronics	Electronics	₹47.45M
₹52.97M	₹138.37M	₹16.67M	20.4% of sales (cancelled + returned)

Sales by Region

Region	Orders	Sales	Profit	Margin	Share
South	863	₹52,974,588	₹9,693,270	18.3%	22.8%
West	873	₹48,474,179	₹8,980,700	18.5%	20.8%
East	837	₹47,047,207	₹8,457,527	18.0%	20.2%
North	842	₹45,849,032	₹8,537,214	18.6%	19.7%
Central	785	₹38,306,915	₹7,385,247	19.3%	16.5%

Green = highest sales, red = lowest profit.

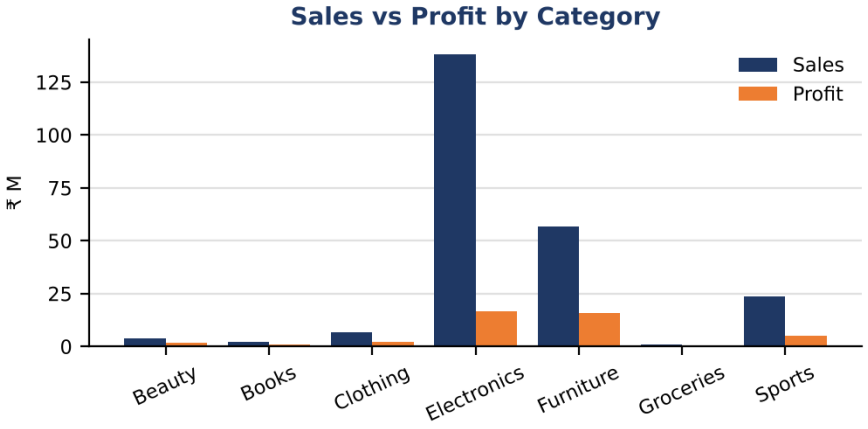

Sales by Product Category

Category	Orders	Sales	Profit	Margin	Share
Beauty	601	₹3,881,089	₹1,748,717	45.1%	1.7%
Books	562	₹2,318,038	₹927,360	40.0%	1.0%
Clothing	632	₹6,722,580	₹2,370,211	35.3%	2.9%
Electronics	608	₹138,369,152	₹16,674,069	12.1%	59.5%
Furniture	576	₹56,709,203	₹16,005,733	28.2%	24.4%
Groceries	607	₹869,678	₹69,632	8.0%	0.4%
Sports	614	₹23,782,181	₹5,258,236	22.1%	10.2%

Gold = margin of 35% or more (outstanding).

Top 10 Customers by Sales

#	Customer ID	Customer Name	Region	Sales	Profit
1	CUST08739	Meera Kapoor	South	₹1,182,709	₹198,110
2	CUST90919	Meera Pillai	South	₹1,071,676	₹126,516
3	CUST55522	Rohan Mehta	South	₹1,033,434	₹141,319
4	CUST83973	Nikhil Mishra	South	₹991,906	₹116,836
5	CUST99865	Nikhil Reddy	East	₹962,865	₹103,582
6	CUST59895	Sanjay Rao	East	₹941,142	₹81,265
7	CUST47686	Ritu Das	East	₹931,056	₹126,890
8	CUST64574	Sanjay Pillai	Central	₹912,511	₹120,414
9	CUST30852	Pooja Mishra	North	₹852,478	₹100,234
10	CUST09307	Meera Shah	South	₹834,953	₹112,521

Top 10 Products by Sales

#	Product	Category	Sales	Profit	Margin
1	Laptop	Electronics	₹26,890,531	₹3,152,998	11.7%
2	Headphones	Electronics	₹25,656,395	₹3,029,210	11.8%
3	Smartwatch	Electronics	₹24,600,859	₹2,975,430	12.1%
4	Camera	Electronics	₹22,118,179	₹2,682,475	12.1%
5	Smartphone	Electronics	₹20,550,102	₹2,524,350	12.3%
6	Tablet	Electronics	₹18,553,086	₹2,309,605	12.4%
7	Desk	Furniture	₹11,565,188	₹3,253,809	28.1%
8	Bed Frame	Furniture	₹9,936,583	₹2,730,791	27.5%
9	Wardrobe	Furniture	₹9,439,328	₹2,734,804	29.0%
10	Chair	Furniture	₹8,713,473	₹2,480,421	28.5%

Customer names come from the first order seen for each Customer ID (see notes on the last page).

Business Insights

1. Which region generated the highest revenue?

South – ₹52,974,588 (22.8% of sales, 863 orders). West (₹48.47M) and East (₹47.05M) follow. Central is the weakest region at ₹38.31M (16.5%), yet it has the *best* margin (19.3%) – it is under-sold, not unprofitable.

2. Which customer contributed the highest sales?

Meera Kapoor (CUST08739, South) with ₹1,182,709 from a single order and ₹198,110 profit. The top 10 customers together are only 4.2% of sales, so revenue is not concentrated in a few buyers.

3. Which product category was the most profitable?

Electronics with ₹16,674,069 profit, but only just: **Furniture** made ₹16,005,733 on less than half the sales (₹56.71M vs ₹138.37M). Electronics margin is 12.1%; Furniture is 28.2%.

4. What business problems did you identify?

- **Revenue leakage.** 14.6% of orders are Returned and 8.2% Cancelled – together ₹47.45M (20.4% of sales). Electronics is 58% of that at-risk value, and returned orders score 2.5/5 on satisfaction vs 3.1 for delivered ones.
- **Over-dependence on Electronics.** It is 59.5% of sales from just 14% of orders, at a thin 12.1% margin. A 1-point margin slip costs about ₹1.4M.
- **Very few orders carry the business.** The top 25% of orders (₹50,000 and above) generate 87% of sales; the bottom half are small-ticket.
- **Weak categories.** Groceries earns an 8.0% margin on 0.4% of sales; Books and Beauty are high margin but tiny (1.0% and 1.7% of sales).
- **Untargeted discounting.** The average discount is about 20% in every category and has no visible link to margin or order size.
- **Customer data quality.** 4,112 Customer IDs for 4,200 orders – only 87 IDs repeat, and some carry different names or regions. Repeat buying and loyalty cannot be measured reliably. 8.2% of orders also have no satisfaction rating.

5. Recommendations to improve performance

1. **Attack returns and cancellations, starting with Electronics.** Record a return reason on every order, tighten pre-dispatch quality checks and product descriptions, and confirm COD/pending orders before shipping. Recovering just 10% of the at-risk revenue is worth about ₹4.7M.
2. **Defend and grow profit, not just sales.** Renegotiate Electronics supplier costs or bundle accessories (each margin point ≈ ₹1.4M), and push Furniture and Sports, which convert sales to profit at 22–28%. Reprice or rationalise Groceries.
3. **Replace flat 20% discounts with targeted offers.** Discount only where it moves volume (slow-selling or high-margin items such as Beauty, Clothing, Books) and cap discounts on low-margin Electronics.
4. **Grow Central and protect the High-value tier.** Central has the best margin but the smallest share – test regional campaigns there. Give the ₹50,000+ order segment priority delivery and after-sales service, since it drives most revenue.
5. **Fix customer identity and feedback capture.** Enforce one unique Customer ID per person, make the satisfaction rating mandatory at delivery, and build a repeat-purchase / loyalty report on top of it.

Notes & Method

- Source: the cleaned order file supplied (4,200 orders). Currency is shown as ₹ because the source states none and all cities are Indian.
- Totals include every order status so they tie to the source; "Revenue at Risk" is Cancelled + Returned sales.

- Customer Name and Region are retrieved from Customer_Data by Customer ID (XLOOKUP / INDEX+MATCH). 68 orders (1.6%) whose recorded region differed take the customer master region; South is #1 either way.
- The workbook is fully formula-driven: pick a year on the Final_Report sheet and every KPI, table and Top 10 list recalculates. This PDF shows the all-years view.
